The **Alexandra Marine & General Hospital, Goderich, ON.** is on the same full, GE Centricity PACS system as LHSC, VH and SJHC is on. You may look up and view our images just as you would view images from any of these sites. Images can also be viewed on Centricity Web PACS.

If the patient has been seen in London already, just enter the London MRN and it will display both London and our images. If the patient has not yet been seen in a London Hospital change the Domain to *WGO* as per below.

Our Domain is **WGO**, and use *All Exams*.

The screenshot shows a PACS software interface with a search bar containing 'WGO' and 'All Exams'. The interface includes a table of search results with columns for Patient ID, Priority, Accession#, Procedure, Modality, Image Count, Study Time, Online status, and Status.
