### **Policy**

Alexandra Marine and General Hospital is committed to promoting, providing and maintaining an environment where respect, independence, and dignity are demonstrated at all times to all patients equally. Patients are encouraged and supported to use whatever assistive devices they require to ensure access to the goods and services offered by the hospital.

### **Standard**

- The right of the individual to use a personal assistive device while accessing goods and services provided by Alexandra Marine and General Hospital is respected and accommodated.
- A patient's assistive device(s) will remain with the patient at all times except where there is a requirement for exclusion of said device:
  - Due to infection control risk
  - Risk of harm to the device and/or individuals
- Staff will develop a plan with the person with the assistive device to arrange for alternate support in the event that the communication device is unable to stay with the patient.
- Notice of the availability of Alexandra Marine and General Hospital Accessibility policies will be posted in a conspicuous place on the premises and/or on the Alexandra Marine and General Hospital web page (the intranet and internet).
- All policies and procedure documents related to Accessibility will be available to the public, in a format agreed upon with the person with a disability.

### **Definitions**

**Assistive Device:** Assistive Devices are used by people with disabilities to help with daily living. They include a broad range of products such as but not limited to walkers, canes, wheelchairs, oxygen tanks,

portable chalk boards and electronic communication devices that people may bring with them to the hospital.

### **Guidelines**

- When communicating with a person with a disability, do so in a manner that takes into account the person's disability.
- Think about and/or learn how people with disabilities communicate. Be flexible in planning your approach use of written, spoken, or picture form or other assistive device may be useful.
- Ask the patient directly about their preferred method of communication
- Plan ahead where possible to ensure the appropriate assistive device is available.
- A variety of assistive measures are available for patients such as: lifts, staff resources, physiotherapy, wheelchair, etc.
